

PAT Tester Calibration Form

For more information visit our website; www.pat-testing.equipment
or call us on 01482 827600

Calibration Service

We are able to offer this important service for your PAT Tester and we have arrangements with a number of different calibration houses so can offer a competitive pricing structure whilst ensuring each calibration is carried out correctly, to national standards.

To arrange a calibration for your PAT tester, please check the price bands below, complete the form overleaf and return it to us. Scan and e-mail to; david@pat-testing-expert.com or phone us on 01482 827600 and we'll take care of the rest.

Price Band A (£45.00 + VAT)			Price Band B (£65.00 + VAT)	
Any Model				
				
				BattPAT Memory PAT PAT-IT DisplayPAT

Repairs

We can usually organise repairs to most PAT Testers - please contact us by phone for advice. If we discover that your PAT Tester is faulty, then we will contact you for authorisation before proceeding with chargeable repairs. Some PAT Testers, such as the BattPAT are covered by a lifetime warranty and so will be repaired free of charge.

Collection and Delivery

We are able to organise collection from your premises using our courier and of course can deliver back to you once the calibration is complete. Normally, we would expect to have your tester back to you within five working days of receipt, but please let us know if you require an urgent service, or delivery back to you on a specific date. If you request a collection, we will organise this with our courier and advise you of the details - please make sure the PAT Tester is available for collection at the agreed time and date.

Please ensure all accessories, leads and adaptors are returned with your PAT Tester - especially the earth lead that you normally use. This is very important! Also, make sure the PAT Tester is packed into a strong cardboard box (not copy-paper box!) to avoid any possibility of damage in transit. We use a reputable courier service and all packages are insured.

To Proceed - please complete the form overleaf, and email to us.
Email; david@pat-testing-expert.com - Phone us on 01482 827600.
